

I500 Case Study

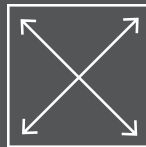

CASE STUDY

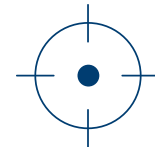

PROJECT LOCATION

Mt. Vernon, IL

PROJECT SIZE

48 Hotel Rooms

PRODUCT SCOPE

Install I500 units in 48 hotel rooms to alleviate noise concerns.

PROBLEM

Highway traffic was affecting the hotel rooms on the elevation facing the highway. I500 units were installed inside of the current hotel windows to provide reduction in noise.

SOLUTION

I500 units installed creating a reduction by more than 12 decibels.

RESULT

Quieter rooms and satisfied customers.
