

# Multi-Family New Construction Case Study

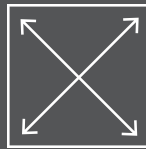

## CASE STUDY

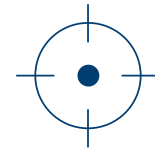

### PROJECT LOCATION

Western Springs, IL

### PROJECT SIZE

6 multi-family buildings  
& 4 single family houses;  
150 windows + 40 patio  
doors total

### PRODUCT SCOPE

New construction STC 40  
windows and patio doors;  
patented subframe design  
with integral structural nail fin.

## PROBLEM

High traffic noise along I-294.

## SOLUTION

The SCS team installed our  
acoustic tandem windows and  
patio doors, cutting the traffic  
noise considerably.

## RESULT

Met STC 40 Requirements. Sin-  
gle-family homes and multi-family  
units are more liveable near I-294.
